Cheetah Networks, a subsidiary of Pace Networks, is one of the leading suppliers of IT Networking Products in Middle East and Africa. The company is registered under the Federal Company Law of the United Arab Emirates.

Cheetah Networks is a well - established and respected brand name in the export market with special focus on the Middle East (Qatar, Saudi Arabia, Bahrain, Kuwait and Oman) and African countries like Sudan, Kenya, Somalia, Nigeria and Libya.

Cheetah Networks has substantial presence in the local market as well and meets the networking requirements of the UAE and export Clientele through its comprehensive range of networking solution.

It has an extensive Distribution network that spreads across the region. The Channel partners include well-established and respected distributors in UAE, as well across Middle East and in other GCC Countries.

Cheetah Networks works with its Distribution Channel as partners thus ensuring timely availability of its range across the region. Our Channel partners not only make available the Cheetah products to our customers but also lay emphasis on keeping themselves knowledgeable about the Cheetah range of products and ensure availability of information on these products that might be needed by the customers.

With its Design and R & D centre in Dubai, Cheetah Networks always works towards providing our customers with highest quality products, technical services and support.

Cheetah Networks has a comprehensive range of networking products and its product portfolio includes Structured Cabling Systems: copper cable, LAN cable, telephone cable, telecommunication cable, fiber optic cable, patch panels, patch cords, keystone jacks, optical connectors, work area outlets, fiber optic boxes, distribution boxes, cable managers, racks and enclosures.

Cheetah Cabling System is the Industry leader in high-speed connectivity. The products meet EIA/TIA specifications and extend 30 years Channel or Performance Warranty (condition applies).

At Cheetah Networks, our Mission is to achieve "customer satisfaction always" through our end-to-end Networking Solutions. To this end we have a well - trained and enthusiastic team in place that assists organizations in planning and deploying technologies that maximizes IT Infrastructure of our customers.
We always work towards meeting our customers' hardware requirements by providing them with networking products of high quality at reasonable prices and within the promised delivery schedules.
